## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 1088 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 1088 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. ## Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because some fees will increase effective October 1, 2004. See Revision of Patent Fees for Fiscal Year 2005; Final Rule, 69 Fed. Reg. 52604, 52606 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
  - By a small entity (Sec. 1.27(a))..... \$685.00
  - By other than a small entity..... \$1,370.00
- (b) Issue fee for issuing a design patent:
  - By a small entity (Sec. 1.27(a))..... \$245.00
  - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
  - By a small entity (Sec. 1.27(a))..... \$330.00
  - By other than a small entity..... \$660.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### DETAILED ACTION

Claims 14-33 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention provides a new system, method and computer program to adjust how an imager increases the charge capacity voltage of the array based on the brightness distribution detected by the imager during at least one previous integration period (see specification, page 2, lines 28-30). In particular, the new method, apparatus and computer product comprise the following features, which the prior art, either taken singly or in combination, does not teach:

- a charge capacity voltage generator, coupled to the image brightness detector and responsive to the measure of intensity for the brightest object in a previous image to adjust the charge capacity voltage applied to the imager to capture a current image (see independent claim 14);

- a function generator, coupled to the image brightness detector and responsive to the measure of intensity for the brightest object in a previous image of the sequence of images to provide a control function that adjusts the charge capacity voltage generated by the imager to capture a current image of sequence of images (see independent claim 20);

- a function generator, coupled to the histogrammer, which analyzes the histogram provided by the histogrammer for a previous image in the sequence of images, to identify a highest intensity value corresponding to at least N of pixel intensity

Art Unit: 2624

values as being a measure of intensity for the brightest object in a previous image, where N is integer, the function generator generating a control function that adjusts the charge capacity voltage generated by the imager to capture a current image of sequence of images responsive to the measure of intensity of the brightest object in the previous image (see independent claim 25);

- adjusting the charge capacity voltage used by the imager to capture a current image of the sequence of images responsive to the measured illumination intensity for the brightest object in a previous image of the sequence of images (see independent claims 27 and 32).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
